GA☆KYO
E N G

Ahead of its time— the ultimate Japanese aquarium

FLOOR GUIDE

roduced by earth creator GA☆KYO, this is the ultimate entertainment aquarium, remixing Japanese cultural traditions and legends such as the Dragon Palace Castle, kaleidoscopes, and courtesan processions into themes expressing miyabi—the traditional Japanese sense of beauty—through the medium of an aquarium. Presenting five magical spaces where, through all five senses, you can experience a dynamic, yet delicate Japanese “beauty” created by man together with the beating heart of living underwater “beauty” born of nature.

ADMISSION

Adults **¥1500** Elementary school students **¥800** Free admission for children under elementary school age ※1

Discount for persons with disabilities

Persons with disabilities can enter the museum at a discount price by showing their certification. One companion per certification can enter at half-price of the general price.

※1 An admission fee (¥600/child) applies to children under elementary school age in the following situations.

- (1) Admission to the aquarium for events organized by kindergartens or nursery schools.
- (2) Admission to the aquarium for events organized by kodomo-kai (children's associations) or kids' clubs.

WABISABI
侘寂

Simplicity and Elegance

This display expresses the Japanese mindset with delicate driftwood, bonsai, and crystals.

Swimming gracefully within a world created by the sound of water, the scent of fresh greenery, and powerful driftwood, the nishikigoi (brocaded carp) are like works of art, ink paintings on a hanging scroll.

OIRAN
花魁

Elite Courtesans

Likening fluttering goldfish to a procession of courtesans dressed in gorgeous feather robes, this installation art exudes a neo-Japanesque mood.

MANGEKYO
万華鏡

Kaleidoscope

Utilizing light reflection to produce various changing patterns, MANGEKYO kaleidoscopes are a form of Japanese illusion dating back to ancient times. Featuring mainly colorful ornamental fish, this collaborative work entices you into an overwhelmingly magical space filled with paintings by Nigamushi Tsuyoshi displaying a diversity of visual direction within a space created with Mirrorbowlers, a group of Japanese artists.

龍宮 RYUGU Palace of the Dragon God

Created in the image of the mythical undersea Dragon Palace Castle in the waters off Odaiba, Tokyo, this magical space is the aquarium's main area. Aquariums, terrariums, driftwood art, and fish tank art explode the concept of aquariums with GA☆KYO-style novel and ingenious ideas. This masterpiece is the culmination of the aquarium creator's challenge over 30 years.

YURAKU 遊樂 Pleasure

The term yuraku literally means "play and enjoy". This special exhibition zone allows you to experience interactive attractions incorporating modern technologies x goldfish scoop games x fortune-telling omikuji = dejikin (electronic money) fortunes within a space designed in the image of Japan's four seasons.
